WELCOME LIVESTOCK PRODUCERS

TO THE PETER ULRICH (FINALE) HEREFORD SALE!

38 BRED HEIFERS - 40 COMING TWO YEAR OLD BREEDING BULLS!
 WITHOUT A DOUBT, THE ULRICH CATTLE ARE LEADERS IN
 PERFORMANCE AND FEED EFFICIENCY OF ALL BREEDS, RIGHT ACROSS
 NORTH AMERICA.

ULRICH'S WERE PERFORMANCE TESTING BEFORE ALMOST ANY
 BREEDER ANYWHERE, AND THE SUCCESS OF THEIR PROGRAM IS
 EVIDENT WITH PROVEN RESULTS. IN THE PAST FEW YEARS, PETER HAS
 TAKEN THE PROGRAM TO THE NEXT LEVEL WITH GROW SAFE AND RFI
 FEED EFFICIENCY TESTING.

ULRICH CATTLE HAVE AGAIN OUT PERFORMED AND BEEN AT THE VERY
 TOP, AND THE NEW RESULTS SHOW THAT 3 OF THE ULRICH HERD
 SIRE'S ARE IN THE TOP 1 % OF ALL ENTRIES.! ALSO MANY PROGENY
 ARE TESTING VERY HIGH IN OVER 314,000 HEAD TESTED.

DON'T MISS OUT THIS IS THE LAST CHANCE! BUY FROM THE BEST!

PROVEN GENETICS -PROVEN PERFORMANCE.

SEE YOU AT THE SALE.

RESPECTFULLY,

R.C. (Bob) Balog

Welcome to our

18th ANNUAL ULRICH BULL & HEIFER SALE

The Finale

It's been a great run...Dispersing the cows in the two sales last December and February was a really great way to wind down... I kept the 2022 crop of Spring calves through for this sale – the Finale!

This enabled me to test the bulls on the Feed Efficiency program last spring. My cattle have fared very well in Vytelle testing and I'm happy to document Proven Feed Efficiency in my herd... (See feature herd bull U 84H - see page 20)

2023 was another summer of wondering when it was going to rain, but thankfully I was able to farm out the yearling heifers on some good grass and really appreciate the support of some great neighbors and friends!

It's certainly not been the same without Dad around. As the pillar of our operation for so many decades, I've certainly appreciated all both Dad & Mom have done for me. I joined the CHA as a Junior in 1970 and by 1974 Dad gave me the pick of the yearling heifers. I chose XUB 44F, who proved herself through subsequent generations by providing my herd foundation with good respectable dams like ALNK 61N, 14X & 17H, plus others. I've done well with that cow line and, of course, the great coaching I received from Dad. Over the last 50+ years I've been able to produce many bulls & herd sires that have sold across North America and around the world.

I originally registered under the name of Peter Ulrich until 2016 when I switched to Ulrich Hereford Ranch Inc and the tattoo letter "U"! I've carried on the "AGA" name prefix to this day... Now, over 50 years later, after continually fighting the effects of the stroke I had at 18 years old, and in later years the lack of good farm help, it's time to slow down.

PETER AND HIS MOM, ANNETTE

So this concludes a great run of annual sales – 18 years of enjoying the support of fellow Hereford breeders and the many commercial cattlemen & women with whom I've been honoured to do business. I've also really appreciated the support of my American friends. The cow herd has been dispersed across the continent, from California to South Dakota to Ontario... I'm confident that they will continue to do well for their new owners as they have done for me.

It's certainly not good-bye! I'll still be around and am planning to offer a few top-notch cattle from stored embryos in the years ahead when I find a smaller piece of land to also pursue other interests. I'm looking forward to shorter days and more time to visit with the wonderful people in the cattle industry and the Hereford breed. Thank you so much for your support and friendship both in the past and in the years to come.

With deep appreciation,

Peter Ulrich

ULRICH HEREFORD RANCH INC.

Box 843, Claresholm, AB T0L 0T0 | PETER ULRICH (403) 625-1036

KEY TO PERFORMANCE TERMS USED HEREIN:

CE: CALVING EASE

BW: ACTUAL BIRTH WEIGHT IN LBS

205: WEANING WEIGHT IN LBS ADJUSTED TO 205 DAYS

365: YEARLING WEIGHT IN LBS ADJUSTED TO 365 DAYS

RFI: RESIDUAL FEED INTAKE (FEED EFFICIENCY)

PWG: POST WEANING GAIN (DIFFERENCE BETWEEN WN & YR)

For more details on individual EPDs, please see the CHA's website: www.hereford.ca

BREED AVERAGE EPD'S

CE	BW	WW	YW	TM	MILK	RFI
3.3	2.7	55.2	88.5	54.0	26.4	104.0

**ALL STAR
BREEDER**

We at Ulrich Hereford Ranch are pleased to have been awarded the status of 7-Star Breeder again this year. This is the highest achievement level of the Canadian Hereford Association's All Star program and simply means that we have completely & accurately reported 7 traits of the performance program: Calving Ease, Birthweights, Weaning Weights, Yearling Weights, Udder & Teat Score, and recorded scores for greater than 20% of the herd for Ultrasound and RFI Testing (feed efficiency testing at Olds College with Vytelle). Ulrich Hereford Ranch was one of only 16 CHA members across Canada to achieve this 7-star status for this year.

**WHAT IS IT AND
WHY SHOULD I CARE?**

Residual Feed Intake is a measure of feed efficiency. One point in the scale represents 10 pounds of feed per year. A larger number on the scale indicates the animal is more efficient. It is important to balance this trait with gain, so the PWG EPD (Post Weaning Gain) identifies the difference between the WW & YW EPDs to keep growth in the analysis. Research has shown that identifying efficient animals translates into a huge savings for the cow/calf industry.

RETAINING SEMEN INTEREST

AGA 48Y SUPER HERO 84H (pictured) was tested for **Feed Efficiency** with Vytelle and landed in the **top 1%** of his group! This should be no surprise. He is a maternal brother to AGA 18Z ZOOM STAN CREDITOR 77C, who is one of **three** Ulrich herd sires who ranked in the **top 1%** across *all* breeds in the entire Vytelle database (over 314,000 head). **84H's sire**, AGA 77J SUPERMAN 48Y, was one of these other 3 **top 1%** bulls!

84H weighed 2646 lbs on Nov 4th and **he's for sale on Feb 27th!**

LETTER FROM THE VET

CLARESHOLM VETERINARY SERVICES LTD

235 43 Ave East
Claresholm, Alberta T0L 0T0
403-625-3677
reception@claresholmvvet.ca

January 5, 2024

Dear potential cattle buyers,

Claresholm Veterinary Services Ltd. has been providing veterinary services and consultation for over 40 years to the Ulrich Hereford Ranch. The majority of the service consists of breeding soundness evaluations of the bulls, pregnancy testing and herd health consultations. Health problems are minimized with a complete vaccination program for cows, calves, and bulls.

Calves are vaccinated with the Zoetis SelectVac Gold Plus vaccine program (the comprehensive program to protect against respiratory disease and BVD) in the spring at pasture turn out and at weaning in the fall.

The replacement heifers receive Bovi-Shield Gold FP5-VL5 in the spring before breeding. The cow herd receives Bovi-Shield Gold FP5-VL5 prior to calving. Cows and heifers also receive a scour prevention vaccine annually as well as a clostridial vaccine.

The bulls receive Bovi-Shield Gold FP5-VL5 in the spring as a yearling and are boosted with this again prior to the sale as a 2 year old.

The females in the sale will be preg tested as pregnant within 30 days of the sale. Their calving dates range from April 1st-June 10th, 2024.

Claresholm Veterinary Services Ltd. is proud to be associated with the Ulrich Hereford Ranch and their cattle operation!

Sincerely,
Dr. Kelsey Vandervalk

TERMS & CONDITIONS

TERMS - The terms of the sale are cash or cheque payable at Lethbridge, AB, on Sale Day. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released. For US export, USDA and individual state rules will apply.

BIDS - Every animal entering the sale ring will be sold to the highest bidder. A floor price will apply to each animal consigned.

DISPUTES - In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS - Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

CERTIFICATE OF REGISTRY - A certificate of registry duly transferred will be furnished to the buyer for each animal after settlement is made.

SHIPPING - Delivery is available at cost and at seller's convenience. Assistance for trucking arrangements will be given as economically as possible. Cattle are the buyer's risk immediately after sale. Any additional expenses are the responsibility of the buyer, including export expenses, duty, brokerage fees, etc.

BREEDER'S GUARANTEE - The consignors have done everything possible to assure you, the buyer, that every bull in this sale will be a breeder. A certified veterinarian has semen tested and physically evaluated every bull. However, should a problem arise, please inform the seller so further arrangements may be made.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer nor any owner assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

LIABILITY - Balog Auction is acting as agent only and assumes no responsibility for representations made by the seller. Purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.

NO BULLS SELL AT CALGARY OR MEDICINE HAT
All of our best are in this sale!

ALL BULLS OF BREEDING AGE ARE SEMEN TESTED BEFORE THE SALE

We strongly recommend that all animals be insured. Insurance agents will be available at the sale.

FLYING IN? If flying into Lethbridge Airport, call Balog Auction for pick up: 1(403)320-1980

WHAT IS AN EPD?

Expected Progeny Differences (EPDs) are genetic predictions producers can use when making selection decisions. These values are available on performance animals from breed associations. It is important to understand you cannot compare EPDs between breeds, only within a breed. A buyer is always advised to use more than just the EPDs regardless of accuracy when making purchase decisions.

An Expected Progeny Difference (EPD) is a measure of the genetic merit of an animal using relevant performance and pedigree information. EPDs are expressed in the units of measure. For example, birth weight is expressed in pounds, and rib-eye area is expressed in square inches.

EPDs come from performance data. Producers submit data on their cattle. From this data, researchers look at the differences between animals raised in the same environment (contemporary groups) and ascertain the portion of that difference that is due to genetics (heritability). Also included in this is how the different traits relate to each other and interact together (correlations). They can then directly compare genetic differences among animals using the pedigree information contained in the CHA and AHA registries. The result is a value that can be directly compared between animals and across environments, an EPD.

EPD'S USED IN THIS CATALOGUE

Calving Ease EPD (CE) - calculated using birth weight and calving ease score information. Calving ease EPDs represent the ease with which progeny of an animal are born to first calf heifers. The EPD is expressed as a percent probability, with a higher value representing calves with a higher probability of being born unassisted.

Birth Weight EPD (BW) - is an indicator of calving ease. Higher birth weight EPDs usually indicates more calving difficulty.

Weaning Weight EPD (WW) - reflects progeny growth differences up to 205-days.

Yearling Weight EPD (YW) - reflects progeny growth differences through to 365-days.

Milk EPD (Milk) - indicates the ability of a sire's daughters to provide their calves with an environment that encourages growth from birth to weaning, through mothering ability and milk production. This EPD is expressed in the expected difference in pounds of calf at weaning.

Total Maternal EPD (TM) - also known as Milk + Growth, this EPD combines the milk EPD plus 1/2 the Weaning Weight EPD. It is expressed in pounds of calf weaned at 205-Days and combines the genetics for pre-weaning growth and the influence of the maternal environment on the weaning weight of the daughter's progeny.

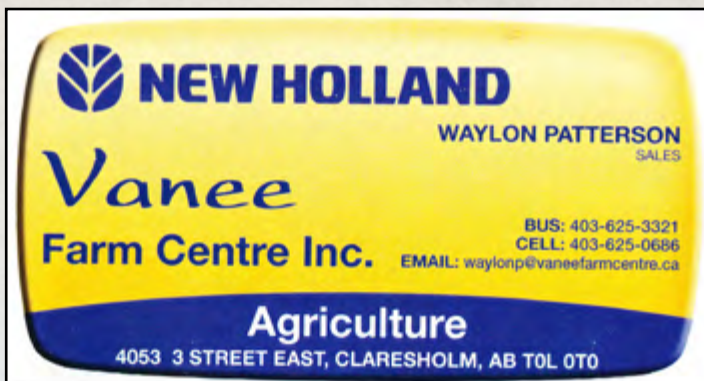

CHA RFI EPD - shows differences between expected feed intake and actual feed intake. A higher index value indicates lower than expected feed intake by progeny, with each point representing 10 pounds of feed. In other words, a *higher* RFI number means the animal is *more efficient*.

COMPARABILITY OF EPD'S

EPDs from Hereford animals are directly comparable to other Herefords in North America, due to the inclusion of data from Canada and the United States. As well, it is important to remember that Hereford EPDs are NOT directly comparable to EPDs produced by different breeds, such as Angus or Simmental.

All EPD's were quoted at time of writing, and weekly runs may have altered these numbers over time.
